OCTOBER STATUS OF TWO-YEAR PLAN IN PRAGUE KRAJ

The majority of the factories in Prague Kraj fulfilled their October quotas under the two-year plan 100 percent the past month, and in some cases the quotas were greatly exceeded. The machine, automobile, and aircraft industries were unable to fill their quota owing to a shortage of material

The Let state enterprise was among the best state enterprises in October. The Jinonice plant of Jan Svezma gained first place in fulfillment of the two-year plan in Prague Kraj, thanks to the self-sacrificing working effort of all its employees. Already the results of the new working method patterned after the Bat'a state enterprise are becoming evident.

The Tesla state enterprise also fulfilled its October assignments well over 100 percent. A shortage of flat cable, the production of which is being transferred to Slovakia, retarded the production of telephone instruments in the best Tesla factory in Karlin. The TOS (Machine Tool Factories) state enterprise is already among the good factories. It has also solved the previous shortage of machine tools, which has hindered the improvement of the machinery stock in some plants.

The glass and chemical industries have also contributed their share to the successful fulfillment of the two-year plan in October. The fat industry shows a good fulfillment of its quota.

The plants of CKD-Sokolovo, Auto Praga Vysocany, and the Cakovice Avia are at the bottom in the fulfillment of the October tasks under the two-year plan. This is partly due to a shortage of material. The Auto Praga factory increased its production of replacement parts during the past month.

Fulfillment of the Two-Year Plan in October 1948

(Total plan fulfillment 1 Jan-31 Oct 1948 shown in parenthesis)
